CONTENTS OF VOLUME 133

No. 1, March, 1940

PAGE

Lauffer, Max A., and Price, W. C. Thermal denaturation of tobacco mosaic virus 1

Mohammad, Ali, Emerson, Oliver H., Emerson, Gladys A., and Evans, Herbert M. Properties of the filtrate factor of the vitamin B_2 complex, with evidence for its multiple nature 17

Moyer, Laurence S. Electrokinetic aspects of surface chemistry. VIII. The composition of the surface film on the fat droplets in cream 29

Bull, Henry B. Viscosity of solutions of denatured and of native egg albumin 39

Barron, E. S. Guzman. Studies on biological oxidations. XIII. The oxidation-reduction potentials of *Spirographis* hemin and its hemochromogens 51

MacKay, Eaton M., Carne, Herbert O., and Wick, Arne N. Antiketogenic and glycogenic activity of citric acid 59

Block, Richard J. The estimation of histidine 67

Block, Richard J. Basic amino acid content of human serum proteins. The influence of the ingestion of arginine on the composition of the serum proteins 71

Orent-Keiles, Elsa, and McCollum, E. V. Mineral metabolism of rats on an extremely sodium-deficient diet 75

Meyer, Karl, and Chaffee, Eleanor. Hyaluronic acid in the pleural fluid associated with a malignant tumor involving the pleura and peritoneum 83

Miller, Leon L. Anaphylactic shock and nitrogen metabolism in the dog 93

Roepke, Raymond R., and Mason, Harold L. Micelle formation in aqueous solutions of bile salts 103

Carter, Herbert E., and Melville, Donald B. Synthesis and determination of the lipotropic activity of the betaine hydrochlorides of *dl*-serine, *dl*-threonine, and *dl*-allothreonine 109

Carter, Herbert E., and Stevens, Carl M. Azlactones. II. Azlactone formation in glacial and in aqueous acetic acid and preparation of benzoyl-α-aminocrotonic acid azlactone II 117

Randall, Lowell O. Effect of repeated insulin hypoglycemia on the lipid composition of rabbit tissues 129

Randall, Lowell O. Effect of testosterone on serum lipids in schizophrenia 137

BERNHEIM, FREDERICK. The action of papain and trypsin on certain dehydrogenases 141
EICHELBERGER, LILLIAN, FETCHER, E. S., JR., GEILING, E. M. K., and VOS, B. J., JR. The distribution of water and electrolytes in the blood of dolphins (*Tursiops truncatus*) 145
FRUTON, JOSEPH S., and BERGMANN, MAX. The activation of papain 153
BERGER, JULIUS, and JOHNSON, MARVIN J. The occurrence of leucyl-peptidase 157
DEUEL, HARRY J., JR., HALLMAN, LOIS F., GREELEY, PAUL O., BUTTS, JOSEPH S., and HALLIDAY, NELLIE. Studies on ketosis. XVII. The rate of disappearance of β-hydroxybutyric acid in fasted and fed rats 173
BAUMANN, C. A., and STARE, F. J. The effect of malonate on tissue respiration 183
LEVINE, HARRY, and BODANSKY, MEYER. Determination of paraldehyde in biological fluids 193
SCHULTZ, JULIUS, and LEWIS, HOWARD B. The excretion of volatile selenium compounds after the administration of sodium selenite to white rats 199
HARRISON, HELEN C., and LONG, C. N. H. The distribution of ketone bodies in tissues 209
LONGWELL, BERNARD, and WINTERSTEINER, O. Estrogens with oxygen in Ring B. III. 6-Keto-α-estradiol 219
ENTENMAN, C., LORENZ, F. W., and CHAIKOFF, I. L. The lipid content of blood, liver, and yolk sac of the newly hatched chick and the changes that occur in these tissues during the first month of life. 231
GREAVES, JOSEPH D., FREIBERG, IRENE KOECHIG, and JOHNS, H. E. Preparation and assay of anterior pituitary fractions rich in ketogenic and respiratory quotient-reducing substances 243
ROBERTSON, WILLIAM VAN B., ROPES, MARIAN W., and BAUER, WALTER. Mucinase: a bacterial enzyme which hydrolyzes synovial fluid mucin and other mucins 261
DI SOMMA, AUGUST A. The constitution of conjugated phenolphthalein formed in the animal body 277

Letters to the Editors

EMMETT, A. D., KAMM, OLIVER, and SHARP, E. A. The vitamin K activity of 4-amino-2-methyl-1-naphthol and 4-amino-3-methyl-1-naphthol 285
VAN SLYKE, DONALD D., HILLER, ALMA, MACFADYEN, DOUGLAS A., HASTINGS, A. BAIRD, and KLEMPERER, FRIEDRICH W. On hydroxylysine 287
GREEP, R. O., VAN DYKE, H. B., and CHOW, BACON F. Separation in nearly pure form of luteinizing (interstitial cell-stimulating) and follicle-stimulating (gametogenic) hormones of the pituitary gland 289

Bernheim, Frederick. The action of fatty acids on the choline oxidase of rat liver 291

No. 2, April, 1940

Moore, Stanford, and Link, Karl Paul. Carbohydrate characterization. I. The oxidation of aldoses by hypoiodite in methanol. II. The identification of seven aldo-monosaccharides as benzimidazole derivatives 293
Neterval, Charles R. A small apparatus for extracting urinary androgens 313
Jones, H. B., Chaikoff, I. L., and Lawrence, John H. Radioactive phosphorus as an indicator of phospholipid metabolism. X. The phospholipid turnover of fraternal tumors 319
Stetten, DeWitt, Jr., and Schoenheimer, Rudolf. The conversion of palmitic acid into stearic and palmitoleic acids in rats 329
Stetten, DeWitt, Jr., and Schoenheimer, Rudolf. The biological relations of the higher aliphatic alcohols to fatty acids 347
Colowick, Sidney P., Welch, Mary S., and Cori, Carl F. Phosphorylation of glucose in kidney extract 359
Alles, Gordon A., and Hawes, Roland C. Cholinesterases in the blood of man 375
Fieser, Louis F. Convenient procedures for the preparation of antihemorrhagic compounds 391
Greenstein, Jesse P., and Edsall, John T. The effect of denaturing agents on myosin. I. Sulfhydryl groups as estimated by porphyrindin titration 397
Edsall, John T., and Mehl, John W. The effect of denaturing agents on myosin. II. Viscosity and double refraction of flow 409
Brand, Erwin, Cahill, George F., and Kassell, Beatrice. Canine cystinuria. V. Family history of two cystinuric Irish terriers and cystine determinations in dog urine 431
Brand, Erwin, and Kassell, Beatrice. The determination of reducing groups with porphyrindin, with special reference to egg albumin 437
Jaques, L. B. Heparinase 445
Stare, F. J., and Baumann, C. A. The effect of insulin on muscle respiration 453
Gurin, Samuel, Bachman, Carl, and Wilson, D. Wright. The gonadotropic hormone of urine of pregnancy. II. Chemical studies of preparations having high biological activity 467
Gurin, Samuel, Bachman, Carl, and Wilson, D. Wright. The gonadotropic hormone of urine of pregnancy. III. Evidence of purity obtained by studies of electrophoresis and sedimentation 477
Bernheim, Frederick. Note on the action of copper and phenylhydrazine on certain dehydrogenases 485
Voris, Leroy, Ellis, Gordon, and Maynard, L. A. The determination of neutral fat glycerol in blood with periodate. Application to the determination of arteriovenous differences in neutral fat 491

Smith, Margaret E., Tuthill, Elizabeth, Drew, Charles R., and Scudder, John. Studies in blood preservation. Some effects of carbon dioxide 499
Darby, William J., and Day, Paul L. Blood sugar levels in rats receiving the cataractogenic sugars galactose and xylose 503
Burk, Norval F. Osmotic pressure, molecular weight, and dissociation of *Limulus* hemocyanin 511
Murrill, William A., Block, Walter D., and Newburgh, L. H. Analyses of urinary protein and various fractions of human and pig serum protein 521
Marker, R. E., and Hartman, Carl G. Assays of urine from rhesus monkeys for pregnanediol and other steroids 529
Crandall, Lathan A., Jr. A method for acetone bodies in blood, applicable to the determination of small amounts of mercury 539
Weast, C. A., and Mackinney, G. Chlorophyllase 551
Snell, Esmond E., Pennington, Derrol, and Williams, Roger J. The effect of diet on the pantothenic acid content of chick tissues .. 559
Huffman, Max N., Thayer, Sidney A., and Doisy, Edward A. The isolation of α-dihydrotheelin from human placenta 567
Virtue, Robert W., and Doster-Virtue, Mildred E. The failure of intravenously injected fat to produce cholic acid in the dog 573
Kassan, Robert J., and Roe, Joseph H. The preservation of ascorbic acid in drawn samples of blood 579
Bueding, Ernest, and Wortis, Herman. The stabilization and determination of pyruvic acid in the blood 585
Seibert, Florence B. Removal of the impurities, nucleic acid and polysaccharide, from tuberculin protein 593
Moyer, Laurence S., and Gorin, Manuel H. Electrokinetic aspects of surface chemistry. IX. The electric mobilities of quartz and collodion particles in mixtures of horse serum and serum proteins in relation to the mechanism of film formation 605
Bischoff, Fritz. Chemical studies on the pituitary "antagonist" 621

Letters to the Editors

Borsook, Henry. The oxidation-reduction potential of coenzyme I .. 629
Jukes, Thomas H. Effect of yeast extract and other supplements on the growth of chicks fed simplified diets 631
Bloch, Konrad, and Schoenheimer, Rudolf. The biological formation of creatine 633
Lozinski, Ezra, and Gottlieb, Rudolph. A substitute for bile salts for administration with substances possessing vitamin K activity .. 635
Nielsen, Edward, Oleson, J. J., and Elvehjem, C. A. Fractionation of the factor preventing nutritional achromotrichia 637
Berger, Julius, and Johnson, Marvin J. The activation of dipeptidases 639
Colowick, Sidney P., Welch, Mary S., and Cori, Carl F. Glucose oxidation and phosphorylation 641

No. 3, May, 1940

Blatherwick, N. R., Larson, Hardy W., and Sawyer, Susan D. Metabolism of *d*-mannoheptulose. Excretion of the sugar after eating avocado 643
Perlman, I., Stillman, N., and Chaikoff, I. L. Radioactive phosphorus as an indicator of phospholipid metabolism. XI. The influence of methionine, cystine, and cysteine upon the phospholipid turnover in the liver 651
Eichelberger, Lillian, Geiling, E. M. K., and Vos, B. J., Jr. The distribution of water and electrolytes in skeletal muscle of the dolphin (*Tursiops truncatus*) 661
Hershberg, E. B., and Wolfe, John K. A rapid extractor for urinary steroids 667
Anderson, R. J., Creighton, M. M., and Peck, Robert L. The chemistry of the lipids of tubercle bacilli. LX. Concerning the firmly bound lipids of the avian tubercle bacillus 675
Steinbach, H. Burr. Sodium and potassium in frog muscle 695
Fruton, Joseph S., Irving, George W., Jr., and Bergmann, Max. Preparation of *d*(−)-glutamic acid from *dl*-glutamic acid by enzymatic resolution 703
Bernhard, Karl, and Schoenheimer, Rudolf. The inertia of highly unsaturated fatty acids in the animal, investigated with deuterium. 707
Bernhard, Karl, and Schoenheimer, Rudolf. The rate of formation of stearic and palmitic acids in normal mice 713
Binkley, S. B., McKee, R. W., Thayer, Sidney A., and Doisy, Edward A. The constitution of vitamin K_2 721
Kingsley, George R. A rapid method for the separation of serum albumin and globulin 731
Rittenberg, D., and Foster, G. L. A new procedure for quantitative analysis by isotope dilution, with application to the determination of amino acids and fatty acids 737
Graff, Samuel, Rittenberg, D., and Foster, G. L. The glutamic acid of malignant tumors 745
Dorfman, Ralph I., and Hamilton, James B. Concerning the metabolism of testosterone to androsterone 753
Astrup, Tage, and Darling, Sven. Preparation of thrombin 761

Letters to the Editors

Arnow, L. Earle, and Opsahl, Jeanette C. Partial racemization of glutamic acid in boiling hydrochloric acid solutions 765
Levene, P. A. Methylation of chondrosamine hydrochloride 767

Proceedings of the American Society of Biological Chemists iii
